SUBJECT INDEX

A

Acid phosphatase, 595
ACTH, 369
Action potential duration, 935
Acute cor pulmonale, 67
Acute myocardial ischemia, 595
Acute renal failure, 245
Adrenoceptor reactivity, 427
Aldosterone, 79, 369, 623, 917
Alpha- and beta-adrenoceptor blocking action of S-596 (arotinolol), 925
Amyloid substance, 13
Aneurysms, 549
Angina pectoris, 853
Angiographic correlation with coronary artery disease, 489
Angiography, 31
Angiotensin-converting enzyme activity, 141
Angiotensin converting enzyme inhibitor, 623
Angiotensin II, 135, 369, 633
Angiotensin II-induced myocardial damage, 235
Anoxic arrest, 199
Anterolateral muscle bundle, 1
Antiaorta antibodies, 549
Anticholinergic action, 985
Aorta, 141
Aortic atresia, 665
Aortic atresia due to catheter malposition, 665
Aortic regurgitation, 31, 471
Aortic valve prolapse, 149
Aortic valve replacement, 581
Aortitis syndrome, 615
Aortogram, 665
Apico-basal gradient, 935
Asymmetric septal hypertrophy, 757
Atrial fibrillatory waves, 309
Atrial imprint, 563
Atrial muscle, 41
Atrial pacing, 947
Atropine, 457
Atypical coarctation, 1007
Autoimmunity, 549
Axial cineangiography, 1

B

β-adrenergic receptors, 215
Beta-blockers, 723
Biochemical analysis and electron microscopy of human mitral valve collagen, 529
Bioprosthetic malfunction, 581
Blood pressure, 135, 587
Body surface distribution of exercise-induced ST depression, 853
Body surface isopotential map, 391
Body surface mapping, 853
Bradykinin, 623
Brain, 141
Brain prostaglandins, 135
Bypass operation, 1007

C

Calcium, 277, 417
Calcium antagonist, 277, 747
Calcium current, 731
Canine heart, 595
Canine left ventricle, 935
Capacitance vessel, 515
Captopril, 269, 369, 975
Carboxyhemoglobin, 407
Cardiac arrhythmia, 127
Cardiac catheterization, 863
Cardiac conduction system, 13
Cardiac function and peripheral circulatory adjustments in acute myocardial infarction, 515
Cardiac index, 91, 711
Cardiac myosin ATPase activity, 427
Cardiac myxoma, 571
Cardiac output, 925
Cardiac volume, 863
Cardiotonics, 399
Cardiovascular effects of digitalis, 961
Cardiovascular response to a mentally stressful stimulus, 315
Catecholamine, 731
Catecholamine sensitivity, 427
Catheterization, 863
Cation transport of red blood cells, 909
Central nervous system, 259
Central sympathetic neural activity, 259

Chaotic echo motion in the left ventricular cavity, 881
Chick embryo, 607
Chordae tendineae, 355
Chronic congestive heart failure, 711
Chronotropic and inotropic effects of captopril, 269
Chronotropism, 269, 649
Cineangiography, 1
Clonidine, 259
Coarctation of the aorta, 1
Combined administration of dexamethasone and captopril, 369
Common ventricle, 607
Complete atrioventricular block, 449
Complication, 303
Computation of left ventricular volume and stroke volume, 863
Congenital abnormality, 303
Congenital heart disease, 607
Conoventricular malalignment, 1
Contractility, 503
Coronary angiography, 689
Coronary arterial spasm, 21
Coronary arteriography, 325, 853
Coronary arteriovenous fistula, 303
Coronary artery aneurysm associated with aortitis syndrome, 1007
Coronary artery disease, 161
Coronary atherosclerosis, 689
Coronary collaterals, 103
Coronary flow reduction, 641
Coronary ligation, 595
Coronary spasm, 739, 747
Coronary steal phenomenon, 303
Coronary ST-elevation, 117
Coronary stenosis, 103, 117
Coronary vascular resistance, 127
Cotransport, 909
Creatinine clearance, 91
Critical coronary artery stenosis, 891
Cross-sectional echocardiography, 757
Curve fitting method, 441
Cystic medial necrosis, 995

D

Daily urinary taurine excretion, 91
Damus-Kaye-Stansel operation, 335
Deslanoside, 961
Developed tension, 961
Developing stage, 227
Diastolic flow, 59
Difference map, 391
Differential relaxing response of arterial smooth muscles, 441
Digitalis, 457, 649
Digitalis receptors, 215
Digoxin, 961
Diltiazem, 277, 747
Disopyramide phosphate, 985
Dissecting aneurysm of the aorta, 995
Dopamine antagonist, 917
Double outlet left ventricle, 657
Dye dilution, 31

E

Echocardiographic classification of persistent truncus arteriosus, 871
Echocardiography, 67, 149, 863
Echo-Doppler technique, 59
Effects of angiotensin I converting enzyme inhibitors on, 975
Effects of captopril on renin-angiotensin-aldosterone system, 623
Effects of carbon monoxide inhalation on myocardial infarct size, 407
Effects of digoxin and deslanoside on sinoatrial conduction, 649
Effect of hydralazine on neurohumoral factors and hemodynamic response, 711
Effects of hyperkalemia, 947
Effects of hypoxia on conduction velocity of ventricular muscle, 417
Effects of influenza virus on cardiac development, 607
Effects of lidocaine and verapamil on overdrive-induced suppression of pacemakers, 449
Effect of mental stress on electrocardiogram, 189
Effect of trapidil on depressed cardiac function, 399
Electrocardiogram, 843
Electrographic changes, 103
Electron microscopy, 355, 539, 595
Electrophysiological alterations, 41
Elevation of plasma renin activity during pregnancy, 995
Endo-epicardial gradient, 935
Epicardial electrography, 407
Ergometric exercise, 161
Ergonovine, 117
Erythrocyte potassium concentration, 227
Essential hypertension, 79, 723, 909

Etiology of aortitis syndrome (Takayasu's arteritis), 615
Eustachian valve, 657
Exercise, 21, 457, 489
Exercise cineventriculogram, 669
Exercise echocardiography, 161
Exercise-induced angina, 21
Exercise-induced asynergy, 161
Exercise-induced ST depression, 21
Exercise-induced ST elevation, 21
Exercise-induced ST-segment elevation, 739
Exercise-induced ST-segment shifts in ischemic heart disease, 669
Exercise-induced ventricular arrhythmias, 489
Exercise Tl-201 myocardial scintigraphy, 891
Exit block, 449
Experimental aortitis, 615
Experimental coronary artery ligation, 407
Experimental hypertensive rats, 141
Experimental model, 277

F

Fast Fourier transform, 557
Fibronection, 615
Frank lead, 843
Frank-Starling effect, 161
Frank-Starling mechanism, 503
Furosemide-induced increases in plasma renin activity and noradrenaline, 259
Fusion beat, 457
F wave size, 309

G

Genetic factor of hypertension, 909
Geriatric alterations, 13
Glomerular carbon filling rate, 245
Glucocorticoid, 369
Graded submaximal exercise, 503

H

Haemorheological determinants, 723
Heart failure, 399, 515
Hemodynamic changes associated with new calcium antagonist, 587
Hemodynamics, 41, 975
Hemolytic-uremic syndrome, 463
High-density lipoprotein cholesterol, 91
High potassium contraction, 441
Histological changes in the conduction system, 13
Histological infarct area, 391
[^{3}H] methyl incorporation, 215
[^{3}H] ouabain binding, 215
Human lead vector, 843
Hyperkalemia, 935
Hyperplasia, 571
Hypertension, 587, 723, 731
Hypertonic mannitol, 245
Hypoplastic left heart syndrome, 481
Hypoplastic right ventricle, 657
Hypoxia, 407

I

Idiopathic hypertrophic obstructive cardiomyopathy, 757
[^{125}I] iodohydroxybenzylpindolol binding, 215
Imipramine, 269
Incomplete relaxation, 277
Indapamide, effects on the heart and peripheral arterial circulation, 731
Indomethacin, 135
Inhibition of captopril-induced increase in plasma renin activity, 633
Initial vector, 457
Inotropism, 269, 649
Intercellular electrical uncoupling, 417
Intracerebroventricular administration of prostaglandin D_2, 135
Intravertebral artery infusion, 259
Intropic effects of antiarrhythmic drugs, 377
Ischemia-reperfusion induced elevation of diastolic tension, 277
Ischemic renal dysfunction, 245
Isolated dog atria, 269
Isolated dog atrium, 649, 961
Isolated ruptures of chordae tendineae, 355
Isoproterenol, 417, 457, 633, 925

J

Jatene operation, 335

L

Left atrial myxoma, 571
Left heart catheterization, 31
Left main coronary artery stenosis, 689
Left ventricle, 325
Left ventricular cineangiography, 669
Left ventricular dimensions, 161
Left ventricular function, 669
Left ventricular outflow tract obstruction, 1
Left ventricular-right atrial communication, 175
Left ventricular size and performance, 503
Low cardiac output syndrome, 235

Luminal diameter, 689
LV max dP/dt, 947

M

Mental arithmetic stress, 189
Methoxy-2-chloro-5-procainamide, 917
Methyltransferase, 215
Metoclopramide, 917
Microelectrode techniques, 935
Mitral bioprosthesis, 59
Mitral regurgitation, 31
Mitral regurgitation associated with aortitis syndrome, 471
Mitral valve collagen, 529
Mitral valve diseases, 529
Mitral valve prolapse, 149, 471, 881
MK421, 975
M-mode echocardiography, 161, 503
Mode of action of SG-75, 289
Morphine, 127
Morphology of atrial myocardial cells, 41
Mucolipidosis, 149
Multipotential mesenchymal cells, 571
Mural thrombus, 325
Myocardial calcification, 297
Myocardial digoxin concentration, 947
Myocardial function, 377
Myocardial infarction, 127, 325, 669
Myocardial ischemia, 103, 117
Myocardial ischemic injury, 407
Myocardial perfusion, 891
Myocardial protection during cardiac ischemia, 199
Myocardial sodium concentration, 947
Myofibroblast, 571
Myoglobin, 407
Myxomatous tricuspid valve, 539

N

Na^+, K^+, Mg^{2+}-ATPase, 215
Na^+/K^+ net flux, 909
Necrotic process in ischemic myocardial cells, 595
Neovascularity, 325
Nicardipine, 587
Nifedipine, 277, 441
Nitroglycerin, 117
Non-invasive cardiac examinations, 149
Noninvasive follow up, 689
Non-mathematical mental task, 315
Non specific aortoarteritis, 549
Noradrenaline, 925

O

One-kidney Goldblatt hypertension, 227
Oral administration, 481
Osmolarity, 199
Osmotic diuresis, 245
Overdrive suppression, 449

P

Paroxysmal atrial fibrillation, 309
Participation of prostacyclin biosynthesis, 289
Patent ductus arteriosus, 665
Pathogenesis of essential hypertension, 91
Persistent truncus arteriosus, 871
Pethidine, 127
Phonocardiogram, 581
Phonocardiographic profile of the porcine bioprosthesis, 581
Phonometric study, 557
Phospholipid methylation in cardiac membranes, 215
Plasma aldosterone response to angiotensin II, 369
Plasma catecholamines, 427
Plasma norepinephrine, 79, 259, 711
Plasma renin activity, 79, 623, 711, 995
Plasma renin concentration, 623
Plasma renin substrate concentration, 623
Porcine bioprosthesis, 581
Positive inotropic action, 399
Posterior aortic wall motion, 67
Potassium, 947
Primary aldosteronism, 917, 995
Primary malignant nephrosclerosis, 463
Primary repair, 699
Propranolol, 633
Propranolol withdrawal, 427
Prostaglandin E_2, 481
Prostaglandin I_2, 641
Prostaglandin I_2 analogue, ZK 36374, 641
Pulmonary angiography, 67
Pulmonary artery banding, 1, 699
Pulmonary artery lesion, 615
Pulmonary artery pressure, 925
Pulmonary embolism, 67
Pulmonic stenosis and incompetence, 297
Pulsed Doppler echocardiography, 59, 175

Q

QT prolongation in mucolipidosis, 149
Quantitative analysis, 689
Quinidine-like drugs, 377

R

Rabbit papillary muscle, 417
Real-time two-dimensional echocardiography, 881
Relaxation, 289
Renal excretory function, 975
Renal function in open heart surgery, 245
Renal hypertension, 141
Renal renin content, 623
Renin, 917
Renin-angiotensin system, 259
Renin release, 633, 917, 975
Renogram, 245
Resistance vessel, 515
Reversed shunt, 175
Rheumatic valvular disease, 563
Right ventricular calcification, 297

CONTENTS

Number 1, January

Coarctation of the Aorta in Early Infancy. Left Ventricular Outflow Tract Obstruction and Its Clinical Implications. *Mizuo Hirose, Kunitaka Joh, Koichiro Watanabe, Hideto Masaki, and Yasushi Iwata* 1

The Relationship of Aging to Histological Changes in the Conduction System of the Normal Human Heart. *Masanori Fujino, Ryozo Okada, and Kikuo Arakawa* 13

Exercise Test in Variant Form of Angina Pectoris. Comparison of the Results with Spontaneous Attacks. *Masahiro Murayama, Kiyoshi Kawakubo, Takashi Kawahara, Masaya Ohshiro, Iwao Uchiyama, Saburo Mashima, and Satoru Murao* 21

Quantitative Evaluation of Valvular Regurgitation by ^{133}Xenon Infusion. *Pavel Jebavý, Jan Kasalický, and Ivo Beránek* 31

The Relationship of Transmembrane Potential to Surface Morphology of Human Atrial Muscle and Cardiac Hemodynamics. *Ying-Shiung Lee, Chau-Hsiung Chang, and Rue-Bee Hsu* 41

A Study of the Diastolic Flow Velocity Profile of the Clinically Uncomplicated Mitral Porcine Bioprosthesis Using an Echo-Doppler Technique. *Veena Raizada, Thomas W. Hoyt, Sue Corlew, and Jonathan Abrams* 59

Echocardiography in Pulmonary Embolism. *Suman Vardan, Sakti Mookherjee, Harold S. Smulyan, and Anis I. Obeid* 67

Role of the Aldosterone System in the Salt-Sensitivity of Patients with Benign Essential Hypertension. *Masao Ishii, Keiichiro Atarashi, Toshio Ikeda, Yasunobu Hirata, Tomoyuki Igari, Yoshio Uehara, Masao Takagi, Hiroaki Matsuoka, Tadanao Takeda, and Satoru Murao* 79

Decrease of Urinary Taurine in Essential Hypertension. *Noriyuki Kohashi and Ryo Katori* 91

Beneficial Effects of the Coronary Collateral Circulation on Tachycardia-Induced Myocardial Ischemia during Experimental Coronary Stenosis. *Susumu Sakamoto, Mitsuhiro Yokoyama, Hozuka Akita, Seinosuke Kawashima, Toshio Okada, Tetsuo Mizutani, and Hisashi Fukuzaki* 103

Effects of Ergonovine-Induced Vasoconstriction on the Genesis of Myocardial Ischemia during Coronary Stenosis in Dogs. *Susumu Sakamoto, Mitsuhiro Yokoyama, Hozuka Akita, Seinosuke Kawashima, Toshio Okada, Tetsuo Mizutani, and Hisashi Fukuzaki* 117

Effects of Morphine and Pethidine on Coronary Vascular Resistance, Blood Pressure, and Myocardial Infarction-Induced Cardiac Arrhythmias. *Kamlesh Kumar Pant, Vinod Kumar Verma, Nisha Mishra, Narendra Singh, Jagdish Narain Sinha, and Krishna Prasad Bhargava* 127

Effects of Intracerebroventricular Administration of Prostaglandin D_2 and Angiotensin II on Blood Pressure in Conscious Rats. *Kazuoki Kondo, Akio Ebihara, and Takao Saruta* 135

Angiotensin-Converting Enzyme Activity of the Brain and the Aorta in Experimental Hypertensive Rats. *Kenji Mizuno, Mitsuhiro Gotoh, Junichiroh Matsui, and Soitsu Fukuchi* 141
Cardiac Involvement in Mucolipidosis. Importance of Non-Invasive Studies for Detection of Cardiac Abnormalities. *Yuichi Satoh, Kazumasa Sakamoto, Yozo Fujibayashi, Takahisa Uchiyama, Nagao Kajiwara, and Michinobu Hatano* .. 149

Number 2, March

Role of Exercise Echocardiography as a Predictor of Coronary Artery Disease. Detection of Exercise-Induced Asynergy by M-Mode Echocardiography. *Ryuichi Ajisaka* 161
Pulsed Doppler Echocardiographic Evaluation of the Shunt Flow in Ventricular Septal Defect. *Kiyoshi Yokoi, Tadashi Kambe, Satoshi Ichimiya, Masao Toguchi, Norio Hibi, and Kinya Nishimura* 175
Effect of Mental Stress on R Wave Amplitude of the Electrocardiogram in Young Healthy Male Subjects. *Yoshitaka Doi, Toyokazu Yoshida, Tadayuki Hiroki, and Kikuo Arakawa* 189
Myocardial Protection during Cardiac Ischemia by Coronary Perfusion with Cold Lactated Ringer's Solution Plus Mannitol. *Motoyuki Takimoto, Sumio Matsuoka, Tajimi Hirohata, Yoshio Suzuki, Katsumi Enomoto, Hisao Ohta, and Naniwa Okada* 199
Phospholipid Methylation in Canine Cardiac Membranes. Relations to β-Adrenergic Receptors and Digitalis Receptors. *Kenji Okumura, Kouichi Ogawa, and Tatsuo Satake* 215
Changes in Erythrocyte Potassium Concentration in Goldblatt Hypertension of the Rabbit. *Toshiyuki Tanaka, Akira Seki, and Jun Fujii* 227
Angiotensin II-Induced Myocardial Damage with a Special Reference to Low Cardiac Output Syndrome. *Takai Kuroda and Hiroshi Shida* 235
Effects of Hypertonic Mannitol on Renal Function in Open Heart Surgery. *Osamu Nishimura, Shuichi Tokutsu, Takeo Sakurai, Motoyuki Takimoto, Hisao Ohta, Yoshiyuki Yamaoka, Ken Kodama, Kazuo Okada, Yoshio Suzuki, Hideki Yokoi, Katsumi Enomoto, and Naniwa Okada* 245
Contributions of Central Sympathetic Neural Activity to Furosemide-Induced Increases in Plasma Renin Activity and Noradrenaline. *Yuji Ueno, Mikio Arita, Hidetoshi Suruda, Osamu Mohara, and Yoshiaki Masuyama* 259
Chronotropic and Inotropic Effects of Captopril on the Dog Heart. *Shigetoshi Chiba, Hidehiko Watanabe, and Miyoharu Kobayashi* 269
Ischemia-Reperfusion Induced Elevation of Diastolic Tension in the Isolated Guinea Pig Heart and the Effects of Calcium Antagonists. *Hiroshi Narita, Taku Nagao, Masanori Sato, Hiromichi Nakajima, and Akio Kiyomoto* 277
Effects of 2-Nicotinamidoethyl Nitrate (SG-75, Nicorandil) on Indomethacin-Induced Contractions of Isolated Dog Coronary Arteries. *Matao Sakanashi, Satoshi Takeo, Yoshimasa Miyamoto, Yoko Aniya, and Makie Higuchi* 289
Right Ventricular Massive Calcification Associated with Pulmonic Stenosis and Incompetence. *Takashi Imura, Kaisushi Kanamori, Takeshi Kobayashi, and Hisakazu Yasuda* 297

Two Cases of Myocardial Infarction with Coronary Arteriovenous Fistula. *Hiroshi Yamabe, Kazuo Fujitani, Tetsuo Mizutani, and Hisashi Fukuzaki* 303

Number 3, May

Fibrillatory Wave Size in Paroxysmal Atrial Fibrillation. *Nobuo Takahashi, Akira Seki, Kouji Imataka, and Jun Fujii* 309
Cardiovascular Response to a Mentally Stressful Stimulus. *Mary Anne Bassett Frey and R. M. Siervogel* 315
Coronary Neovascularity Related to a Left Ventricular Mural Thrombus. *Kazuhiro Tomotsune, Mitsuru Shimizu, Yoshihiko Wakiya, Hidehiko Sakurai, Tatsuji Kanoh, Ryozo Okada, and Kazuo Kitamura* 325
Autopsy Study on Operative Procedure and Indication for Transposition of the Great Arteries. *Toshio Abe, Shuuhei Hayase, Hidemasa Kishimoto, and Yohtaro Iyomasa* 335
Scanning and Transmission Electron Microscopic Studies on Isolated Ruptures of Chordae Tendineae. *Ying-Shiung Lee, Chau-Hsiung Chang, Hsin-Chin Chen, and Gan-Fang Liang* 355
Effect of Combined Administration of Dexamethasone and Captopril on Plasma Aldosterone Response to Angiotensin II in Normal Man. *Kenji Mizuno and Soitsu Fukuchi* 369
Intropic Effects of Several Antiarrhythmic Drugs. *Giuseppe Ferro, Massimo Chiariello, Michele G. Tari, Carlo Vigorito, Biagio Ungaro, and Mario Condorelli* 377
Sequential Changes in the Difference Maps of Potential Distributions and the Extent of Myocardial Infarctions. *Toshiki Ohta, Junji Toyama, Satoru Sugiyama, and Kazuo Yamada* 391
Improvement by Trapidil of Cardiac Function of the Dog Heart-lung Preparation Depressed by Pentobarbital. *Keisuke Satoh, Mitsuo Kawada, and Norio Taira* 399
Effects of Carbon Monoxide Inhalation on Myocardial Infarct Size Following Experimental Coronary Artery Ligation. *Souichiro Sekiya, Sadayuki Sato, Hiroshi Yamaguchi, and Kenichi Harumi* 407
Effects of Hypoxia on Conduction Velocity of Ventricular Muscle. *Tatsuji Furuta, Itsuo Kodama, Takeshi Shimizu, Junji Toyama, and Kazuo Yamada* .. 417
Catecholamine Sensitivity and Cardiac Myosin ATPase Activity in Dogs Treated with Propranolol. *Makie Higuchi, Keiichi Enomoto, and Takeo Asakawa* 427
Differential Relaxing Response of Various Arterial Smooth Muscles of Dogs to Nifedipine. *Nobuharu Akatsuka* 441
The Effects of Lidocaine and Verapamil on Overdrive-Induced Suppression of Pacemakers in Dogs with Complete Atrioventricular Block. *Ichiro Watanabe, Satoshi Saito, Nobuhiro Takahashi, Naoshi Tanigawa, Yukio Ozawa, and Michinobu Hatano* 449
Wolff-Parkinson-White Syndrome with Gradual Transition from Type A to Type B. *Yoshikazu Suzuki, Hajime Terada, and Noboru Yamazaki* 457
Hemolytic-uremic Syndrome in an Adult. *Tomoko Gomi, Mikio Yuhara, and*

Takao Ikeda 463
Mitral Regurgitation Associated with Aortitis Syndrome. *Shigenori Morooka, Shugo Tanaka, Tetsuo Ohya, Toru Takano, Yoshi Ohtani, Tadanao Takeda, and Satoru Murao* 471
Oral Administration of Prostaglandin E_2 in the Hypoplastic Left Heart Syndrome. *Yoshiki Fujiseki, Hisashi Yamamoto, Masanori Hattori, Yasushi Yamawaki, Masakatsu Goto, and Morimi Shimada* 481

Number 4, July

Exercise Induced Ventricular Arrhythmias. Angiographic Correlation with the Severity of Coronary Artery Disease. *Lorenzo deCaprio, Sergio Cuomo, Carlo Vigorito, Anna Giunta, Massimo Romano, Pasquale Meccariello, and Franco Rengo* 489
Left Ventricular Size and Performance during Graded Supine Exercise in Normal Subjects. *Keizo Furukawa, Kazuo Nishida, Chihiro Yamada, Shunpei Niki, Hiroki Sugihara, Yoshio Kohno, Hiroshi Katsume, Hamao Ijichi, Hirokazu Kitamura, and Hiroshi Kunishige* 503
Cardiac Function and Peripheral Circulatory Adjustments in Patients with Acute Myocardial Infarction. Observations during the Early Stage of AMI. *Yoshihiko Seino* 515
Biochemical Analysis and Electron Microscopy of Human Mitral Valve Collagen in Patients with Various Etiologies of Mitral Valve Diseases. *Ying-Shiung Lee, Fan-Yu Lee, Ar-Huey Lu, Chau-Hsiung Chang, Hsiu-Chin Chen, Kan-Fong Liang, and Chung-Shia Chang* 529
Ultrastructure and Mechanical Properties of Chordae Tendineae from a Myxomatous Tricuspid Valve. *Koon Ong Lim, Derek R. Boughner, and D. Garth Perkins* 539
Non Specific Aortoarteritis (Takayasu's Disease). An Immunologic and Autopsy Study. *P. Chopra, R. K. Datta, A. Dasgupta, and S. Bhargava* 549
Phonometric Study of the Second Heart Sound in Normal Man. *Carlo Longhini, Tiziano Toselli, Guido Masotti, Enrico Bellotti, Lucia Ansani, Gian Franca Musacci, and Sandro Michelini* 557
Severe Tricuspid Valve Stenosis. A Cause of Silent Mitral Stenosis. *Abdolhamid Sheikhzadeh, Homayoon Moghbeli, Parviz Ghabussi, and Siavosh Tarbiat* .. 563
Left Atrial Myxoma. An Ultrastructural Study. *P. Chopra and V. K. Sharma* .. 571
Phonocardiographic Profile of the Porcine Bioprosthesis in the Aortic Position. *Veena Raizada, Jonathan Abrams, Neale D. Smith, Kenneth B. Desser, and Alberto Benchimol* 581
Hemodynamic Changes Associated with Long-term Antihypertensive Therapy with New Calcium Antagonist. *Toshiro Fujita and Hiroshi Noda* 587
Electron Microscopic Cytochemical Studies on Acid Phosphatase Activity in Acute Myocardial Ischemia. *Naomi Nakamura, Yasufumi Sasai, Youichi Takeyama, and Takashi Katagiri* 595
The Effects of Two Strains of Influenza Virus on Cardiac Development in the Chick Embryo. *Fatemeh Reyhani, Iraj Nazarian, and Jami Shakibi* 607
Experimental Aortitis. Aortic Lesions Induced by a Serine Protease. *Shige-*

nori Morooka 615
Effects of Chronic Administration of Captopril on Blood Pressure and the Renin-Angiotensin-Aldosterone System in Normotensive Rats. *Masao Ishii, Atsuo Goto, Kenjiro Kimura, Yasunobu Hirata, Minoru Yamakado, Tadanao Takeda, and Satoru Murao* 623
Inhibition of Captopril-induced Increase in Plasma Renin Activity by Propranolol. *Atsuo Goto, Masao Ishii, Tadanao Takeda, and Satoru Murao*..... 633
Effects of a Prostaglandin I_2 Analogue, ZK 36374, on Recurring Reduction of Coronary Blood Flow. *Yasumi Uchida and Satoru Murao* 641
Direct Effects of Digoxin and Deslanoside on Sinoatrial Conduction in Isolated, Blood-perfused Dog Atria. *Miyoharu Kobayashi, Masahiro Shimotori, and Shigetoshi Chiba* 649
Double Outlet Left Ventricle. A New Type of Presentation. *Jorge R. Büchler, Heitor G. Carvalho, and Nilzo Ribeiro* 657
Misdiagnosis of Aortic Atresia Due to Catheter Malposition. *Iraj Aryanpur-Kashani, Luke C. Yu, Ching C. Ti, and Charles B. Higgins* 665

Number 5, September

Hemodynamic Evaluation of Exercise-induced ST-segment Depression and Elevation in Ischemic Heart Disease. Left Ventricular Cineangiography during Exercise. *Hisatoshi Bekki* 669
Detection and Quantification of Left Main Coronary Artery Stenosis by Two-Dimensional Echocardiography. *Bernd Heublein, Nariaki Kanemoto, Christel Steidl, and Paul Romaniuk* 689
Ventricular Septal Defect in Infancy. Surgical Criteria and Experience. *Ricardo Gómez, Pedro A. Sánchez, Rafael Martínez, Julio P. León, Manuel Arteaga, Fernando Villagrá, María J. Verduras, Salvador L. Checa, and José M. Brito* 699
Effect of Orally Administered Hydralazine on Neurohumoral Factors and Hemodynamic Response in Aged Patients with Chronic Congestive Heart Failure. *Keiji Ueda, Makoto Sakai, Satoru Matsushita, Iwao Kuwajima, and Mototaka Murakami* 711
Essential Hypertension. The Behaviour of the Haemorheological Determinants and Their Trends during Beta-Blocker Treatment. *Gregorio Caimi, Anna Catania, Filippo Frazzetta, Diego Capobianco, and Antonio Sarno* 723
Once a Day Indapamide Therapy in Hypertension. Effects on the Heart and Peripheral Arterial Circulation. *Liberato Aldo Ferrara, Dante Giumetti, Maria Luisa Fasano, Stefano Soro, Arcangelo Iannuzzi, Pasquale Strazzullo, and Mario Mancini* 731
Exercise-Induced Cyclic Episodes of S-T Segment Elevation in a Patient with Variant Angina. *Iwao Sato, Katsuro Shimomura, and Osamu Shiroeda* 739
A Case of Variant Angina and Myocardial Infarction 6 Months after Successful Bypass Surgery. *Fumimaro Takatsu and Teruo Nagaya* 747
A Case of Idiopathic Hypertrophic Obstructive Cardiomyopathy Causing Severe Right Ventricular Ouflow Tract Obstruction in Infancy. *Hiroshi Matsumoto, Hiroshi Fukuda, Hideaki Kado, Hisataka Yasui, Sunao Honda, and*

Teruyoshi Ishida 757
Proceedings of XVIII Annual Scientific Meeting of the Council for the Spontaneously Hypertensive Rat (SHR). November 21–22, 1982, Osaka-fu .. 765

Number 6, November

On the Absolute Magnitude of the Human Lead Vector. *Saburo Mashima, Kan Kakayanagi, Hiroshi Inoue, and Hiroshi Matsuo* 843
Body Surface Distribution of Exercise-Induced ST Depression in Patients with Angina Pectoris. *Isao Kubota, Yoshihiko Watanabe, Kai Tsuiki, and Shoji Yasui* 853
Echocardiographic Formula for Computation of Left Ventricular Volume and Stroke Volume. Comparison with Cardiac Catheterization and the Teichholz Formula. *W. S. Seitz and M. S. Spiel* 863
Two-Dimensional Echocardiographic Classification of Persistent Truncus Arteriosus. *Gengi Satomi, Kenji Nakamura, Atsuyoshi Takao, and Yasuharu Imai*.... 871
Chaotic Echo Motion in the Left Ventricular Cavity. Visualization of Ruptured Chordae Tendineae of the Mitral Valve by Real-Time Two-Dimensional Echocardiography. *Seiki Nagata, Hiroshi Sakakibara, Yung-Dae Park, Tsuyoshi Fujita, Kohei Kawazoe, Shintaro Beppu, and Yasuharu Nimura* .. 881
Quantitative Evaluation of Exercise Tl-201 Myocardial Scintigraphy Before and After Transluminal Coronary Angioplasty. A Preliminary Report. *Nariaki Kanemoto, Gustav Hör, Gisbert Kober, and Mertin Kaltenbach* 891
Cation Transport of Red Blood Cells from Hypertensive Patients in Japan. *Shunichi Kojima, Keiichi Itoh, Fujio Deguchi, Tsuguo Osada, Hidenao Ashida, Masanobu Uda, Genjiro Kimura, Masatoshi Yokouchi, Takashi Natsume, Masayuki Tsuchiya, Toshiyuki Tanaka, and Masao Ikeda* 909
Effects of Metoclopramide, a Dopamine Antagonist, on Secretion of Aldosterone and Renin Release in Patients with Primary Aldosteronism. *Kenji Mizuno, Masa-aki Yamazaki, Kaoru Ikeda, Kenji Yaginuma, Shigeatsu Hashimoto, and Soitsu Fukuchi* 917
Studies on Concurrent Alpha- and Beta-adrenoceptor Blocking Action of S-596 (Arotinolol). *Noboru Takekoshi, Eiji Murakami, Shinobu Matsui, Hidenori Murakami, Jiro Emoto, and Akihisa Hashimoto* 925
Nonuniform Action Potential Durations at Different Sites in Canine Left Ventricle. *Souichiro Sekiya, Santa Ichikawa, Takeshi Tsutsumi, and Kenichi Harumi* 935
Studies on the Effects of Hyperkalemia on Serum and Myocardial Digoxin Concentration in Dogs. *Yoshitaka Kori, Kazuhiro Fujitani, and Isamu Nagai*.. 947
Cardiovascular Effects of Digitalis on Intact Dogs and Isolated Cross-Perfused Atria. *Shigetoshi Chiba, Hiroshi Zenda, Miyoharu Kobayashi, Masahiro Shimotori, Akihiko Tada, and Mitsuyuki Kitazawa* 961
Effects of Angiotensin I Converting Enzyme Inhibitors on the Renal Excretory Function, Hemodynamics and Renin Release in Isolated Perfused Rat Kidney. *Tohru Ogihara, Mamoru Yoshizawa, Toshiyuki Yasui, Haruyuki Nakane, Yoko Nakane, and Takao Saruta* 975
The Effect of Disopyramide Phosphate on Ventricular Fibrillation Threshold of Normal and Ischemic Ventricles. *Tsunemi Tajima and Yutaka Dohi* 985

Elevation of Plasma Renin Activity during Pregnancy and Rupture of a Dissecting Aortic Aneurysm in a Patient with Primary Aldosteronism. *Akihiko Shimizu, Wataru Aoi, Masazumi Akahoshi, Toshinori Utsunomiya, Yutaka Doi, Shin Suzuki, Morio Kuramochi, and Kunitake Hashiba* 995
Coronary Artery Aneurysm Associated with Aortitis Syndrome Diagnosed Pre- and Intraoperatively. *Ikuo Fukuda, Hiroshi Ijima, Tsuyoshi Itoh, Tadashi Iriyama, Hajime Maeta, Kenji Okamura, Toshio Mitsui, and Motokazu Hori*....1007
